Today is 10-3-2024 My husband and I were recently thinking about Ralph and had wondered why we had not seen him in so long. Ralph used to have a unique interest in hard to find collectibles, and that is how we met. Ralph was always a joy to chat with. His knowledge of the items he collected was amazing. I was always fascinated by the conversations we had. I came across a receipt today that was dated 2-8-2022 and that was the last time I saw Ralph. You are dearly missed and I hope you know up there in Heaven that you are still in our thoughts. Rest in peace my friend.

Our thoughts and prayers to Dottie and family. I have been honored and very fortunate to have worked with Ty at Bendix and Meritor WABCO. He was the "engineer's engineer" to work with. His professional talents and accomplishments ranks him among the earlier industry leaders such as Valentine, Smith, Morse and others. We enjoyed many business activities together and our China travels in the 1980's were an education and then some. My last contact with Ty in 2021 regarding a product issue resulted in a 4 page summary highlighting his experience and opinions - typical Ty!
