S teven Striegl Obituary

Steven A. Striegl, 63, of Elyria, died unexpectedly January 17, 2022. He was born February 9, 1958 in Seattle, WA. He received his bachelor's degree in engineering from Virginia Tech where he met his future wife, Jean, and received his master's degree in 1982. He spent most of his younger years in Northern Virginia, having moved to Idaho for his first position with Bettis then was transferred to Pittsburgh. They lived in PA from 1988-2021, before moving to Elyria to be closer to his daughter and son in law. For 36 years, Steven worked for Betchel/Bettis in Pittsburgh, PA. He spent most of his career working on engineering aircraft carriers with one of his greatest achievements being H.W. Bush's aircraft carrier which was completed in 2009. He was an avid outdoorsman, enjoyed hiking, climbing and caving. He spent years cycling rail trails with his wife and traveled across the country many times visiting 37 of the 63 national parks. Steven is survived by his wife of 39 years, Jean (nee Vetter); son, William Striegl; daughter, Elizabeth (Nathan Gillespie) Striegl; and siblings, Frank Striegl and Leslie Parker. He was preceded in death by his parents, William and Sheila (nee Southard) Striegl. Services will be private. In lieu of flowers, memorial contributions may be made to any of the US National Parks or National Park Association.

Al Oleksa posted:

I've known Steve almost 30 years. At work he was a great engineer who understood how to make the right decisions in a timely manner. As a friend enjoyed the almost daily walks during lunch hour at work where we could ignore work and just talk. My sympathy to the family. You are in my thoughts and prayers.

Dana Stricklin posted:

I worked with Steve in the old SEA days as his administrative assistant. Steve was a joy to work with and was always pleasant. The last time I saw him was at his retirement gathering. You have my deepest sympathies.

Elizabeth Striegl posted:

Miss you deeply dad. You were my hero and the strongest man I knew. You could fix anything and knew everything. I have already wanted to call you 10 times since I said goodbye to ask a question or get your advice. I see so much of me in you and miss you every minute

David Blair posted:

I am so sorry to hear of Steve's passing. I had occasion to work with Steve on a radiography task he had. Remember us sitting in the rain all night waiting for the radiographers to complete the task under Steve's direction. It was a big task and he received a special recognition at Bettie for his accomplishment. Steve's personality was what I remember. Great engineering mind and friendly person. God bless him and your family. Sincerely, Dave Blair Radiological Engineering Manager, retired Bettie Laboratory
