I have known Frank since he started to work at Stanley. He worked as a shop and parts manager then and was very good at his job. He moved to service manager before long and became very dedicated to his job. When he became branch manager he spent a lot of time in the office. Because of his commitment to his job it made mine that much better. I considered Frank not only the best supervisor I ever had but a very good friend. He came over to my hunting camp and we spent time not only at camp with other friends and family but time in the woods deer hunting. I feel that these are some good memories. It has been about two and one half years since I talked to Frank but I thought about him often. Frank will always have a place in my memories that are dear to me. His friend and deer hunting buddy Ray Volk.
